Case closed." Mr. Taruskin's approach is actually very much in the Horowitz mold: take a theme and blow it out of all proportion, until it becomes grotesque and barely recognizable. Thus, a statement that seems self-evident to any trained musician -- that there is an integrity to the melodic lines and structures put to paper by a composer and that this integrity deserves consideration and respect - is inflated into a grand and rigid posture, antimusical in nature.	False		1994-02-07	TX 3-754-803
